The sole responsibility for this Conformity Declaration lies with the Manufacturer.

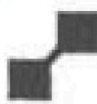

Item of Declaration

Designation: Flamenprojector
Type and marketname: X2 Wave-Flamer
Model: X2 Wave Flamer v1.1
Serialnumber: xxxxxx

Function: The Flameprojector "X2-Wave-Flamer" uses the integrated pumping station to pump liquid fuels (Bioethanol, Isobar-H, N-Butanol). The liquid is ignited at the head of the device, and discharged with 10bar pressure. The discharge direction can be changed during use (see function and safety hints in the manual).

Hereby, we declare that the aforementioned Machine, in its conception and build, as well as the type brought onto the market by us, adheres to the basic safety- and healthregulations of the EG-Compliance 2006/42/EG and 2004/108/EG. This declaration is void, if any modification is made, which is not verified by us.

This declaration has been handed in at Klagenfurt a.W., on the 26.03.2014 by Mr. Harald Kulterer (Owner Explo Zündtechnik).
